SITUATIONAL LEADERSHIP®: BUILDING LEADERS

LEADING WITH DiSC®

Situational Leadership®: Building Leaders introduces participants to the **Situational Leadership® Model** and equips leaders with the necessary tools to skillfully navigate the demands of an increasingly diverse workforce and evolving global marketplace.

Leading With DiSC® integrates the application of the Everything DiSC® Management Behavior Model with the **Situational Leadership®** approach, providing a learning experience that enables participants to leverage their awareness of an individual's DiSC® style to accurately diagnose readiness and lead appropriately.

Note: You can attend one or both of the workshop courses.
